Whereas, the Dy. These bauxite loaded trucks are plying from Naquerim Betul to MPT from the morning hours to late night and same is found to be uncontrolled as they are being released from the mine site in one go, without any control by the mining Department or any other Government Agency and such trucks cause traffic congestion at various places on the road.

- 1) Considering the traffic congestion on the said route, one truck shall be allowed to come out from the mine within two minutes, in other words there shall be an interval of two minutes between two trucks.

coming out from the mines to the mine owner and copy to Dy. SP (Traffic).

- 3) The tyres of the mining trucks coming from the mining area shall be washed before advancing towards the tar road and shall take full precautions that mud carried by the tyres of the trucks from mining area is not deposited/spilled on the tar road surfaces making the tar road slippery and unsafe for the public.
- 4) If in case due to any reason the mud gets collected on the road causing inconvenience to the general public to the extent of their safety then the respective mining Company whose trucks are plying on those roads shall be responsible to wash the road by using water tankers and other pressure equipments at their own cost making it safe for the commuters of that road.
- 5) The trucks shall not carry Iron Ore Lumps more than 10 metric tones.
